CONGRESS: BEYOND BOUNDARIES
Technology, Creativity and New Horizons
June 2-3, 2027 · Glashaus Arena Berlin
OPEN CALLS
www.showtech.berlin/congress

BEYOND BOUNDARIES
TECHNOLOGY, CREATIVITY AND NEW HORIZONS

The future of theatre technology begins where boundaries are challenged and new possibilities emerge. From innovative technologies and visionary architecture to sustainable solutions and new approaches to teaching and learning, we invite you to explore the ideas shaping the future of the performing arts.

SHOWTECH Congress brings together diverse perspectives, disciplines and experiences to question established practices, share knowledge and discover new ways of thinking and creating.

We invite submissions that challenge established practices, share new knowledge and explore the intersections of technology, art and creativity. Whether presenting pioneering innovations, inspiring projects, practical experiences or unconventional ideas, we welcome diverse perspectives that push boundaries and open up new horizons. Because progress happens when we dare to think differently, work together and create space for artistic freedom and innovation.

SHOWTECH CONGRESS

June 2-3, 2027 · ARENA Berlin

Who can contribute?
This call for papers is aimed at professionals from the fields of theatre technology, direction, production and scenography and addresses technical planners, architects, developers, artists, scientists and students who are interested in presenting innovative ideas and hands-on concepts.

What do we need from you?
Abstract: Please send in a summary of max. 800 signs outlining the main idea, its relevance to the congress theme, and the key insights or practical takeaways for the audience.

Format
Would you like to give a classic presentation? Then our stage is the right place for you. If you're planning interactive sessions on a certain topic and are looking for a direct exchange with participants, then your contribution will be a great addition to our roundtable.

Language
English is the preferred language for presentations. Submissions in German are also welcome. Interpretation will be available for presentations on the main stage. Roundtable discussions will be held without interpretation.

Deadline for contributions: January 31, 2027

Speaker benefits
Selected speakers will receive:

- Travel cost support, subject to prior approval and the congress reimbursement policy
- Hotel accommodation for up to two nights, arranged and covered by the organiser
- Complimentary access to SHOWTECH Congress
- Complimentary access to the SHOWTECH trade fair, June 1-3, 2027
- Complimentary admission to SHOWTECH Night on June 2, 2027
- Opportunities to connect with professionals from across the performing arts industry
- Visibility through SHOWTECH's communication channels and speaker programme

Further details regarding travel arrangements and reimbursement will be provided upon selection.

Application
Please use the following form to submit your presentation topic:
